

## How to integrate Stripe with Livebox OTT Toolkit

Integrating your Stripe account with the Livebox OTT Toolkit is now made easy!

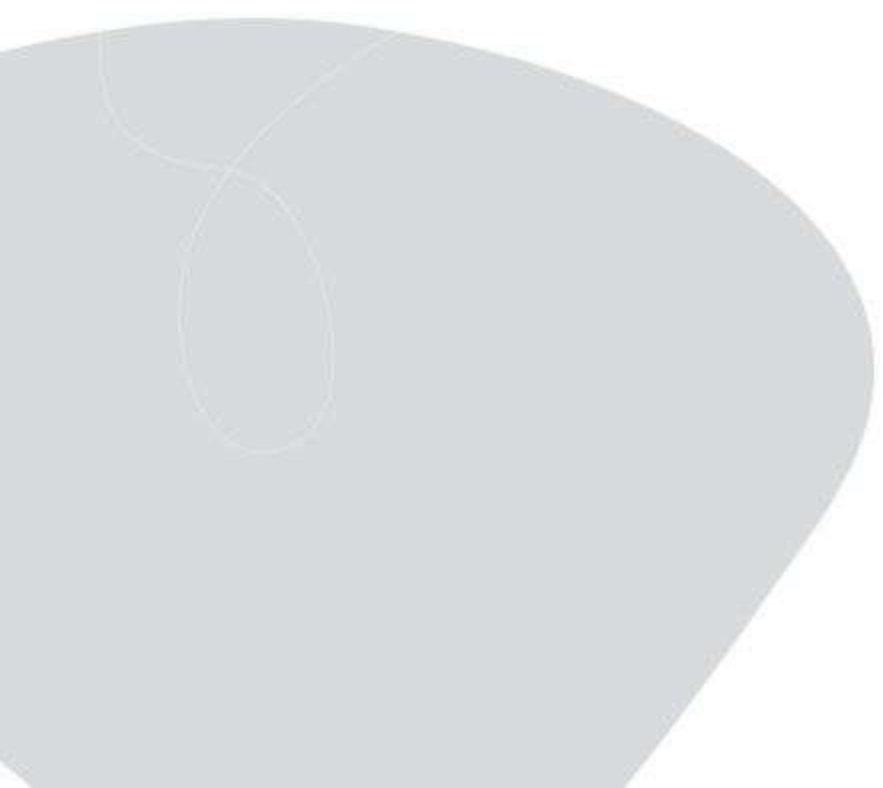

## Pre-requisites

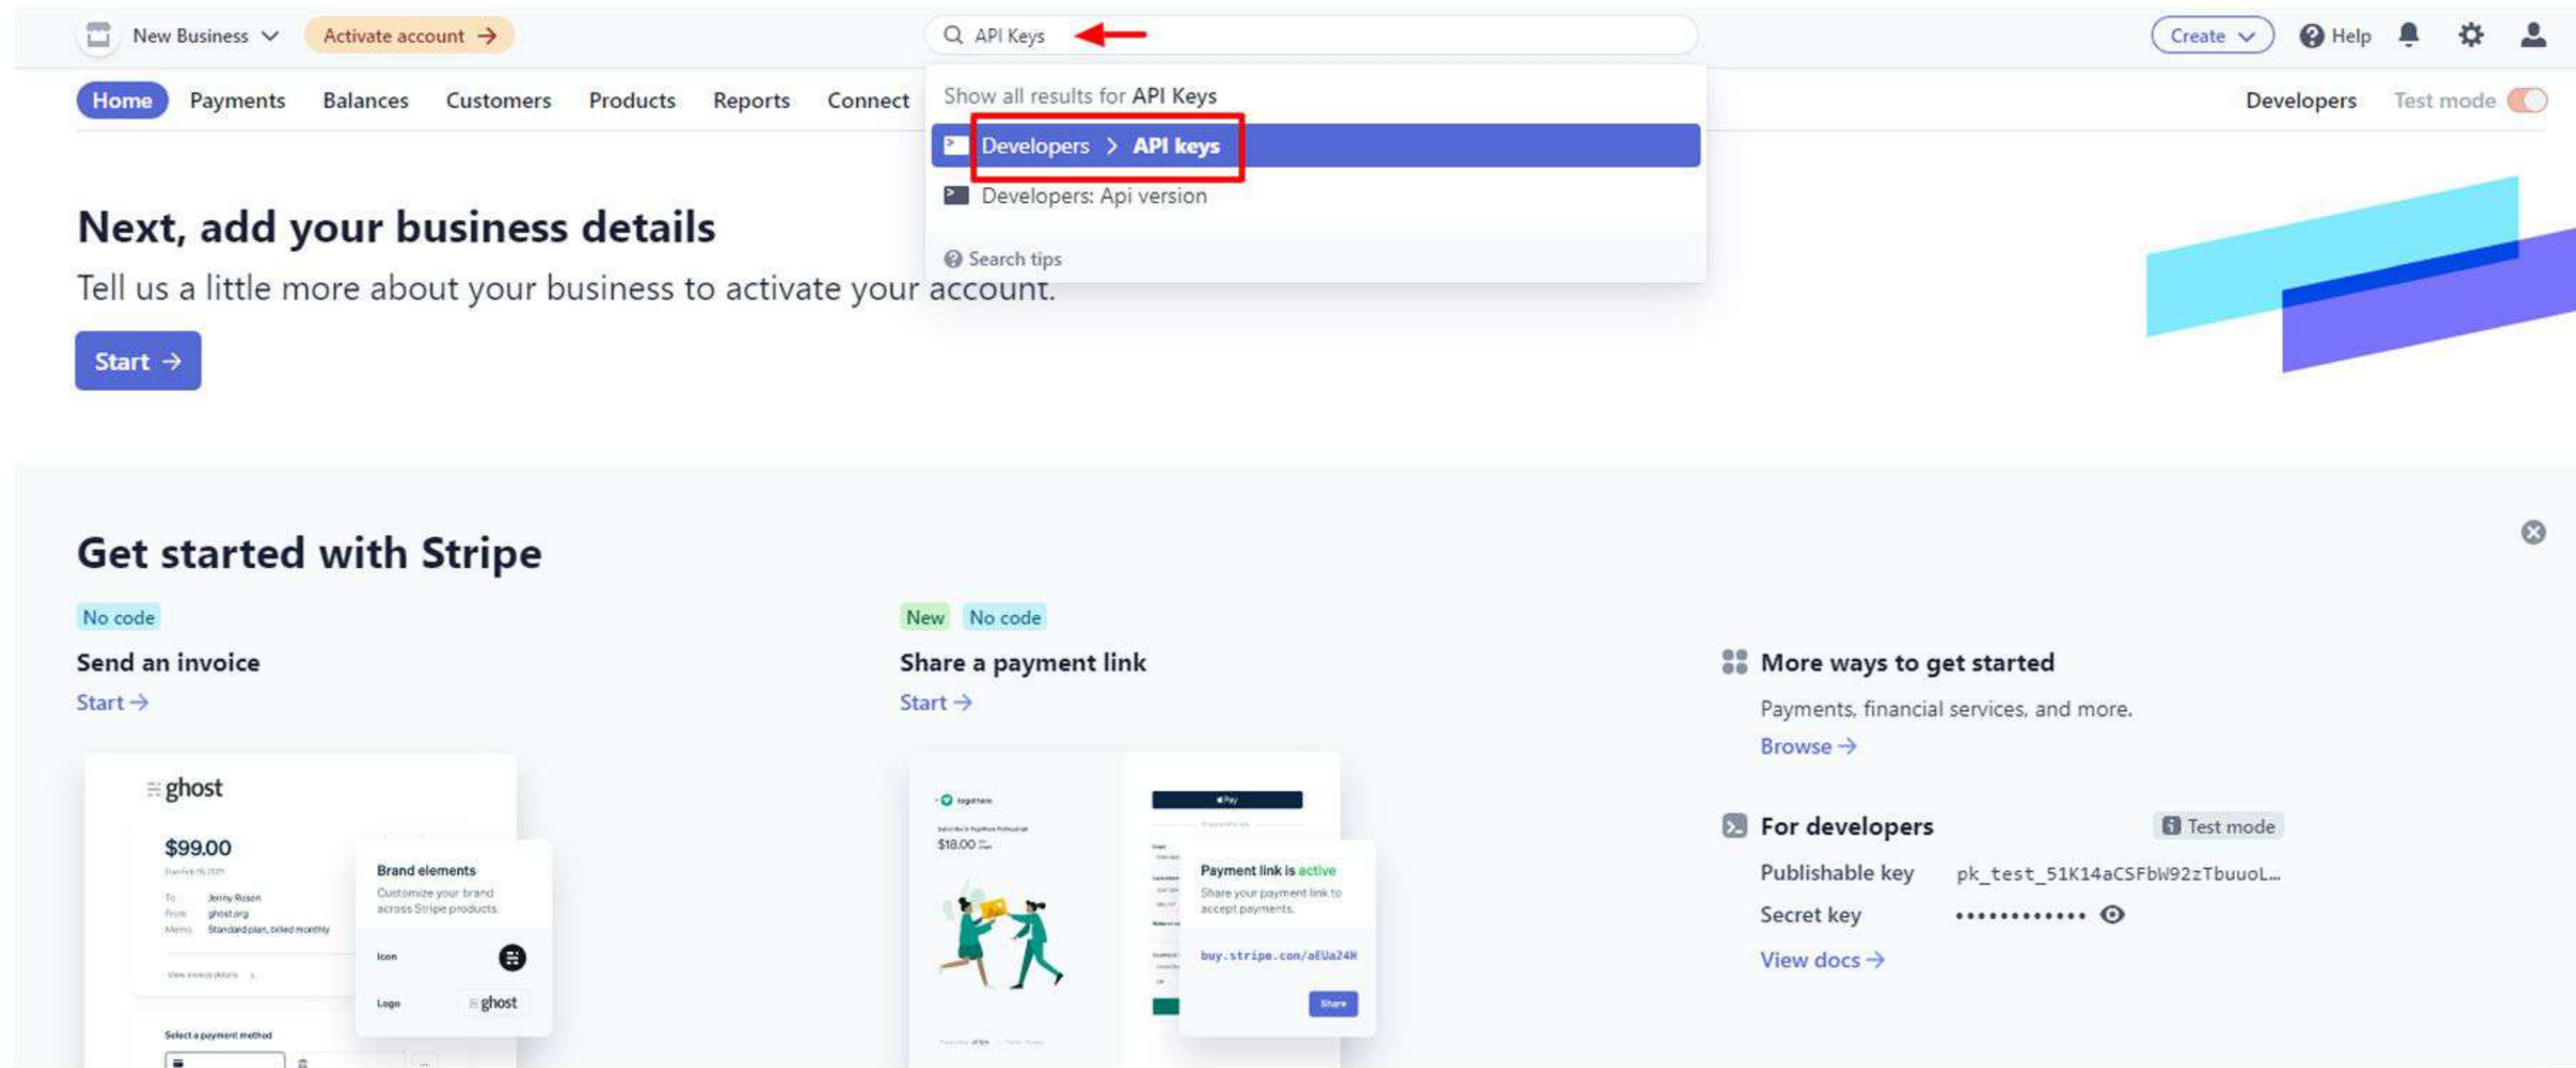

- ✔ An active Stripe account
- ✔ An active Livebox OTT subscription

## STEP 1

Login to Stripe's dashboard and enter "API Keys" on the search bar.

The screenshot shows the Stripe dashboard interface. At the top, there is a search bar with the text "API Keys" entered. A red arrow points to the search bar. Below the search bar, a dropdown menu is open, showing "Show all results for API Keys" and a list of results. The first result, "Developers > API keys", is highlighted with a blue bar and a red box. Below the search bar, there is a navigation menu with items like "Home", "Payments", "Balances", "Customers", "Products", "Reports", and "Connect". To the right of the search bar, there are buttons for "Create", "Help", "Settings", and "User". Below the search bar, there is a section titled "Next, add your business details" with a "Start" button. Below that, there is a section titled "Get started with Stripe" with three main cards: "Send an invoice", "Share a payment link", and "More ways to get started". The "Share a payment link" card shows a sample payment link: "buy.stripe.com/aUa24H". The "More ways to get started" card shows "For developers" with a "Test mode" toggle and API keys: "Publishable key pk\_test\_51K14aCSFbW92zTbuoL..." and "Secret key .....".
